

Bung Entering Mixer

ASC-CYCLONE-P | CAPACITY: 55 GALLONS

The ASC-Cyclone-P is a high-efficiency bung-entering mixer built to deliver fast, consistent mixing directly within closed 55-gallon drums. Its compact design allows it to enter through standard bung openings, while its powerful motor and optimized mixing blade design ensure thorough agitation of heavy materials. The ASC-Cyclone-P minimizes mess, maximizes safety, and reduces the need for drum transfers. Durable, reliable, and easy to operate, this unit is ideal for continuous mixing applications.

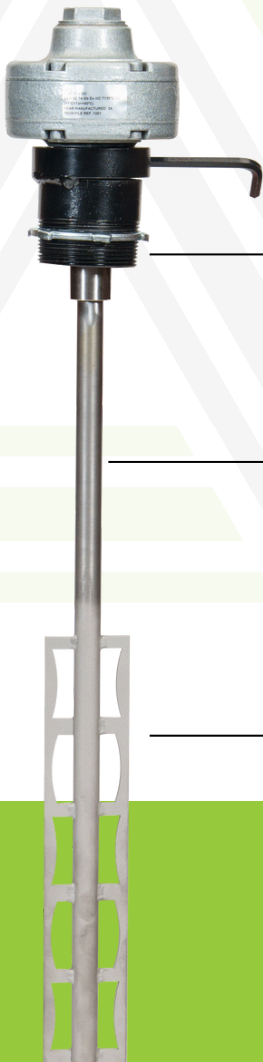

CFM REQUIRED @80psi: 25

PEAK TORQUE ft lb: 1.75

MAX RPM: 3000

FEATURES:

- 3/4 HP Air Motor
- 1-1/2 HP Air Motor Available
- Brass Needle Valve
- Muffler
- Straight Bung Adapter
- Stainless Steel Coupler
- Stainless Steel Shaft 5/8" x 33" Long
- Welded Stainless Steel Blade 1-7/8" x 24"

Straight Bung Adapter

Stainless Steel Shaft 5/8" x 33" Long

Welded Stainless Steel Blade
1-7/8" x 24" Long
