

Aluminum Stand Mixer

ASC-SM-5-P-C-A / ASC-SM-5-P-A | CAPACITY: 5 GALLONS

The ASC-SM-5-P-C-A is a compact, stand mixer with a clamp mount and air motor, designed for versatile mixing in industrial and light-duty environments. This unit combines efficient performance with flexible installation, allowing secure attachment to various surfaces. The air-powered motor provides reliable operation with reduced electrical risk, making it ideal for areas where compressed air is preferred. Built for durability and ease of use, the ASC-SM-5-P-C-A offers a practical solution for controlled, small-batch mixing with minimal maintenance.

CFM REQUIRED @80psi: 25

PEAK TORQUE ft lb: 1.75
