

Aluminum Stand Mixer

ASC-SM-5-PC-A / ASC-SM-5-P-A / | CAPACITY: 5 GALLONS
ASC-SM-5-P-A-E

The ASC-SM-5 Series mixers are compact, versatile units designed for efficient small-batch mixing in both industrial and light-duty applications. Available with clamp or pedestal mounts and driven by either air or electric motors, these mixers offer flexibility to suit a wide range of installation needs and operating environments. Whether air-powered for added safety or electric-driven for consistent output, the ASC-SM-5 Series provides practical, controlled mixing solutions across multiple applications.

CFM REQUIRED @80psi: 25

PEAK TORQUE ft lb: 1.75

MAX RPM: 3000

FEATURES:

- 3/4 HP Air Motor
- 1-1/2 HP Motor or Radial Piston Motor Available
- Brass Needle Valve
- Muffler

- Aluminum Stand
- Stainless Steel Coupler
- Stainless Steel Cover
- Stainless Steel Blade 6" x 2-3/4" x 3/16"
- Stainless Steel Shaft 1/2" x 12" Long
- Manually Adjustable or Pneumatic Elevator
