

Heavy Duty Back Geared Mixer

ASC-STORM | CAPACITY: 55 GALLONS

The ASC-STORM is powered by a 1HP Radial Piston Motor, providing high torque output while consuming significantly less air than traditional rotary vane motors. With no gearbox, the unit operates efficiently using only the motor. Ideal for mid-viscosity applications, the ASC-STORM offers reliable, energy-efficient mixing performance.

CFM REQUIRED @90psi: 9

PEAK TORQUE ft lb: 5

MAX RPM: 300

FEATURES:

- 1 HP Radial Piston Motor
- Brass Needle Valve
- Muffler
- Stainless Steel Coupler
- Stainless Steel Shaft 5/8" x 33" Long
- 2 Stainless Steel Blades 12" x 4" x 3/16"
- Adjustable Top Blade
- Stainless Steel Drum Cover and 2" Hole for Siphon Tube

1 HP Radial Piston Motor

Stainless Steel Drum Cover and 2" Hole for Siphon Tube

Adjustable Top Blade

Heavy Duty Back Geared Mixer with Elevator

ASC-STORM-E | CAPACITY: 55 GALLONS

The ASC-STORM-E features a 1HP Radial Piston Motor that delivers high torque while using significantly less air than traditional rotary vane motors. Designed without a gearbox, it relies solely on the motor for efficient and powerful performance. This mixer is well-suited for mid-viscosity applications, offering energy savings and consistent mixing results.

CFM REQUIRED @90psi: 9

PEAK TORQUE ft lb: 5

MAX RPM: 300

FEATURES:

- 1 HP Radial Piston Motor
- Brass Needle Valve
- Muffler
- Stainless Steel Coupler
- Stainless Steel Shaft 5/8" x 33" Long
- 2 Stainless Steel Blades 12" x 4" x 3/16"
- Adjustable Top Blade
- Stainless Steel Drum Cover and 2" Hole for Siphon Tube
- Elevator with Air Controls
